

WATERTECH SPECIALTY CHEMICALS

Cooling Towers

- Alkalinity Adjustment
- Antifoams
- Biocides
- Cleaners
- Corrosion Inhibitors
- Dispersants
- Scale Inhibitors

Boilers

- Alkalinity Adjustment
- Antifoams
- Cleaners
- Oxygen Scavengers
- Scale Inhibitors
- Steam Line Treatment

Wastewater

- Activated carbon
- Alum
- Antifoams
- Bacteria
- Bentonite Clay
- Bioaugmentation
- Chlorine Dioxide
- Coagulants
- Coagulant Blends
- Defoamers
- Diatomaceous Earth
- Enzymes
- Ferric

- Flocculants
- GRAS Products
- Hydrogen Sulfide Destruction
- Metal Precipitants
- MicroC
- Micronutrients
- Odor Control
- Emulsion Breakers
- Oxidizers
- PAC
- Poly Aluminum Chloride
- Polyamines
- Polymers
- Potassium Permanganate
- Sodium Hydroxide
- Sodium Hypochlorite
- Sodium Permanganate
- Supplemental Carbon Source

Commodities

- Acetic Acid
- Carbon Chemistries
- Caustic Potash
- Caustic Soda
- Citric Acid
- Hydrated Lime
- Hydrochloric Acid
- Lime Slurry
- Peroxide
- Sulfuric Acid

Watertech of America carries a full range of chemistries to optimize your boiler, cooling and wastewater applications.

Having the right water chemistry improves productivity and prolongs equipment life.
