

WATERTECH of America, Inc. Contractor Referral Program

As a leader in the water treatment industry, Watertech of America understands that mechanical contractors are a pivotal part of a well designed, built and operated water treatment program. Our goal is to provide the best collection of products and services so you can provide your clients the best possible solution.

PRODUCTS & SERVICES

Bidding and Preconstruction Consulting:

Engage with Watertech at the earliest phase of your bidding and proposing to ensure all necessary elements of the water treatment program are included. Earlier engagement leads to easier and better outcomes.

Equipment support:

Watertech can provide preassembled systems that simplify installation and ensure necessary equipment is included in your project bids. Our Applications Team and Water Treatment Engineers can review system designs and make recommendations that will set you apart from your competition. Watertech also offers special pricing programs to contractors to ensure you are providing the best possible equipment at a price that allows you to be competitive.

Serving the Midwest since 1980

Watertech is Wisconsin's only full-service water treatment provider, providing service to customers throughout the Midwest.

Equipment Installation & Commissioning:

Often having an experienced installer of water treatment equipment assist with or manage the installation provides better outcomes. Watertech can work along-side your installation team to ensure that all of the water treatment components are installed properly and in a way that makes them easy to work with for the operators.

Training:

Watertech can provide free, on-site training to your inside and field personnel to help them understand the function and design of water treatment programs.

Our goal is to provide the best collection of products and services so you can provide your clients the best possible solution.

WATERTECH PRODUCTS

SPECIALTY CHEMICALS
